STELVIO PFF RIDER ASSISTANCE SOLUTION 1000 FEATURES

From Busy Streets To Uncharted Terrain

With the temperament of a born traveller and an intrepid spirit, Stelvio is a modern adventure tourer that expresses its Moto Guzzi heritage in every detail, combining contemporary, pared-back lines with the most up-to-date technological solutions available like the PFF Rider Assistance Solution®.

From Busy Streets To Uncharted Terrain

An unmistakable design

Solid, compact and powerful, the Moto Guzzi heritage can be seen in every detail. From its iconic "Compact Block" V-Twin engine to its unique single-sided swing-arm and its distinctive eagle-shaped DRL, each element is designed to bring into being Stelvio.

Born to travel

Stelvio was designed to allow you to make the most of every ride and expand your horizons without boundaries, thanks to its 21-litre tank with a range of over 400 km. At its core is the tubular steel frame that facilitates handling of the motorbike, obtaining the optimal compromise between agility and stability.

4D Radar Technology

The innovative driver assistance platform uses 4D radar imaging technology to provide an exceptionally wide field of vision. It also ensures reliable monitoring of factors, regardless of the level of illumination and ambient conditions.

Cutting-edge equipment

Moto Guzzi Stelvio offers Cornering ABS, traction control, Full LED headlights, Cruise Control and introduces PFF Rider Assistance Solution® technology, a riding assistance platform that increases safety and fun on the road.

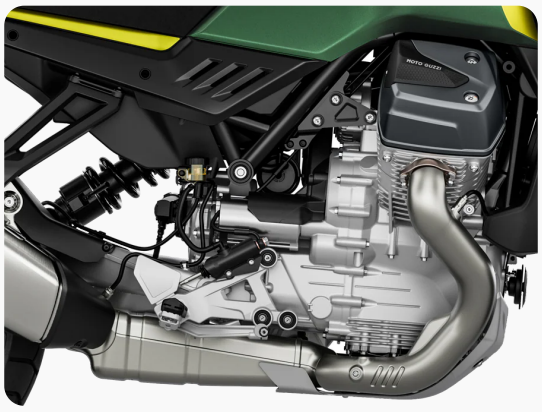
Suspension

The suspensions are fitted with a fork with adjustable 46-mm hydraulic extension and preload stanchions, a single shock absorber with remote spring preload and 170 mm travel, allowing the engine to quickly adapt to trips with a passenger on board.

Shaft Drive

Robust, reliable and incredibly smooth: the Moto Guzzi Stelvio PFF shaft drive transfers every horsepower to the rear wheel with precision, with no chains to lubricate and no adjustments required. Minimal maintenance, maximum riding freedom.

Shaft Drive



Engine

The new Stelvio is driven by the innovative Moto Guzzi V-Twin "Compact Block" Euro5+ engine, complete with shaft drive transmission. Its performance perfectly complements its design, thanks to its 1,042 cc engine, delivering a maximum power of 115 HP at 8,700 rpm and a peak torque of 105 Nm at 6,750 rpm.

Dashboard

Stelvio is oufitted with a state-of-the art technologycal package that integrates advanced features like Cornering ABS and traction control, Full LED lights, Cruise Control, a 5" full color display and five customizable riding modes, including an off-road mode.

Dashboard

PFF Rider Assistance Solution® Technology

The front and rear PFF Rider Assistance Solution® devices comprise four different functions designed to improve safety and deliver a more rewarding riding experience: Forward Collision Warning, Blind Spot Information System, Lane Change Assist, Following Cruise Control*.

Brakes

The 19-inch spoked front wheel with tubeless tyre and the Brembo brake system deliver more dynamic riding control, maximum comfort and greater hold on less conventional roads.
