STELVIO 1000 FEATURES

Travel without Limits

Riding Stelvio is about savouring the open road in pure Moto Guzzi fashion, with no desire to be anywhere else in the world. The modern adventure tourer by Moto Guzzi is ready to accompany you everywhere with its unique style and state-of-the-art technology made to improve your riding experience. Manufactured with pride in the new factory at Mandello del Lario.

Travel without Limits

Born to travel

Stelvio was designed to allow you to make the most of every ride and expand your horizons without boundaries, thanks to its 21-litre tank with a range of over 400 km. At its core is the tubular steel frame that facilitates handling of the motorbike, obtaining the optimal compromise between agility and stability.

No road is off limits

Comfort is found in every detail of the Stelvio and no road is off limits, regardless of the load. Thanks to the 19-inch front wheel, 170-mm suspension travel, a spacious saddle sitting just 830 mm off the ground, electrically adjustable windshield and bags with built-in clips.

An Unmistakable Design

An Unmistakable Design

Solid, compact and powerful, the Moto Guzzi heritage can be seen in every detail. From its iconic "Compact Block" V-Twin engine to its unique single-sided swing-arm and its distinctive eagle-shaped DRL, each element is designed to bring into being Stelvio.

Shaft Drive

Robust, reliable and incredibly smooth: the Moto Guzzi Stelvio shaft drive transfers every horsepower to the rear wheel with precision, with no chains to lubricate and no adjustments required. Minimal maintenance, maximum riding freedom.

Shaft Drive

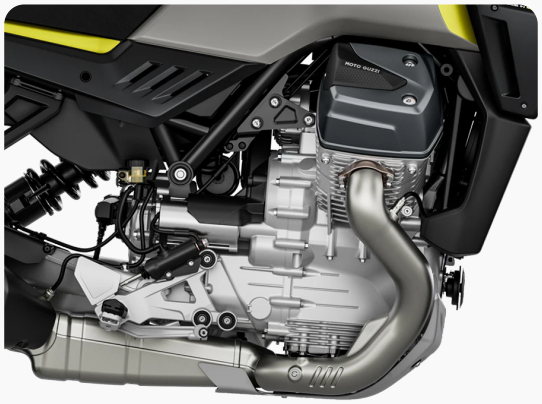

Suspension

The suspensions are fitted with a fork with adjustable 46-mm hydraulic extension and preload stanchions, a single shock absorber with remote spring preload, allowing the engine to quickly adapt to trips with a passenger on board.

Engine

Stelvio is driven by the innovative Moto Guzzi V-Twin "Compact Block" Euro5+ engine, complete with shaft drive transmission. Its performance perfectly complements its design, thanks to its 1,042 cc engine, delivering a maximum power of 115 HP at 8,700 rpm and a peak torque of 105 Nm at 6,750 rpm.

Dashboard And Technology

Dashboard And Technology

Stelvio is outfitted with a state-of-the art technological package that integrates advanced features like Cornering ABS and traction control, Full LED lights, Cruise Control, a 5" full colour display and five customisable riding modes, including an off-road mode.

Brakes

The 19-inch spoked front wheel with tubeless tyre and the Brembo brake system deliver more dynamic riding control, maximum comfort and greater hold on less conventional roads.
